

## 37NE537

High speed durable resin ribbon (up to 600mm/s).  
This ribbon offers high performance on abrasion and smudge resistance.  
This is the best choice for high speed printing of flexible packaging.

### INK FEATURES

Designed with an anti-static backcoat to protect printhead and extend the printhead life.

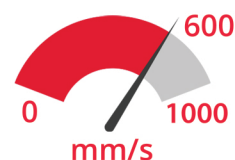

This resin ribbon guarantees high darkness to improve the scan rate of barcode.  
Excellent performances on smudging and scratching.

Ink	Resin ribbon
Back-coating	Silicon based
Ribbon thickness	< 7 µm
PET film thickness	4 µm
Length	1000m
Width	30mm 55mm
